

Statement 1st October 2008

**Dee4Life Celebrate 5 Year Anniversary
And look forward to the future**

After five years of non-stop hard work by dozens of volunteers and donations from thousands of fans, raising close to £500,000 for Dundee FC, securing a seat on the board of the club and a 26% shareholding, the Dee4Life Trust is preparing for the next chapter in its history.

It's often been hundred-mile-an-hour stuff, but understandably the trust has found time, resources and volunteers harder to come by recently. In recent months the workload has fallen on the shoulders of just a few active committee members, so clearly it was time for change. The trust consulted with former board members and prominent supporters to assist in determining its future strategy.

"It was felt the main area requiring improvement was communication, and the date for the Trust AGM has now been set for Saturday 20th December. Before then, we will be working to finalise a strategy to improve dialogue with all fans," explained Trust chairman George Knight.

"To assist in this we are delighted to announce that three former trust board members - Scott Glenday, Robin Grimmond and Fraser MacDonald - have been appointed to fill vacancies on the trust board. In order to ensure we remain truly representative, all directors of the trust including myself will stand for re-election at the forthcoming AGM, however we would encourage anyone else willing to give the time and effort required to come forward," added Knight.

"In light of recent press articles regarding potential investment in the club, we are sure members will understand that the trust cannot comment on specific speculation at this time." said Knight. "However, we would like to assure members that we will be fully involved in any discussions to ensure the fans' interests are protected."
